User Manual

Activity 7: User Manual

Log in Page

Logging in serves as a security measure to protect your personal information, restrict access to authorized individuals, and ensure the confidentiality and integrity of the system. It helps prevent unauthorized users from accessing sensitive data or performing actions reserved for authenticated users.

A screenshot of a web application window titled "Form1". The background is orange. At the top, the text "Bits and Bytes" is displayed in a bold, black, sans-serif font. Below this, there are two input fields: "Username" and "Password", each with a white text box and a blue underline. At the bottom, there is a white button with the text "Login" in black.

Landing Page

A screenshot of a web application window titled "Landing_Page". The background is orange. At the top, the text "Welcome to Bits and Bytes" is displayed in a bold, black, sans-serif font. Below this, there is a large black square containing a white and red logo that reads "BITS & BYTES IT SOLUTION". To the right of the logo, there is a vertical stack of five white buttons with black text: "Items", "View", "Employees", "Back Up", and "Log out".
